

A WATER RIGHT FIGHT

The Hope Company's Trouble With Phillipsburg Citizens.

AN OLD DITCH IN DISPUTE

A Slight Accident at the Granite Mine—Mine Inspector Swallow's Orders—Other Matters.

Special to the Standard.

PHILLIPSBURG, May 11.—Yesterday Superintendent Ringling of the Hope Mining company put a force of about 20 men at work cleaning out an old ditch belonging to the Hope company. The ditch has not been used for some eight or nine years and mining locations have been made from one end to the other, and besides this, since the apparent abandonment of the water right by the Hope company, others have appropriated and now claim the water. Angus A. McDonald, Frank Brown, James A. Murray and others own nearly all of the claims over which the water must run, and they also claim the water and refuse to allow the company to repair the ditch. Some persons turned the water out of the ditch last night and so far today the company have made no move. Mr. Ringling couldn't be found this evening and the company's side of the story learned, but the above appears to be the facts. It is very likely there will be lively times over the matter yet.

Charles Clark, the St. Louis millionaire mining man, dropped quietly and rather unexpectedly in town yesterday.

Judge Connolly disposed of six cases this morning. Most of them were drunks and disorders and light fines were imposed and paid.

The cage at the Granite mine was again pulled up into the shafts and done considerable damage. This is the second time in the last two months or less, and the cage has dropped once since the last accident, when so many men were injured, but fortunately no men were on. It is reported Mine Inspector Swallow has notified the Granite company that the engine was unsafe, but this would hardly seem necessary. It is also reported that the Elizabeth company will be asked by the mining inspector to make provision for an escape from the mine. This would necessitate the sinking of an air shaft and would be rather expensive; but for the safety of the men it should be done.

DEER LODGE NOTES.

Sold By the Sheriff—Mining Matters—A Narrow Escape.

DEER LODGE, May 10.—The property of Otto Wommelsdorf at Stuart, consisting of a saloon and hall, was sold by the sheriff in front of the court house Saturday afternoon, and was bid in by his nephew, Emil Wommelsdorf, of Helena, at \$1,000. Otto Wommelsdorf is of unsound mind, and is being cared for at present at the sister's hospital in Deer Lodge, whence he will probably shortly be removed to Warm Springs.

A rumor Saturday morning that a big strike had been made in the Champion mine created quite a fervor in mining circles. A. J. Bielenburg, the president of the company, and several others, went up to the mines in the morning in a private conveyance, and on their return reported that there was no foundation for the report. Mr. Bielenburg stated that they had been hauling from 25 to 30 tons of ore a day, which was taken from the five hundred foot level, and they expect to commence work in the mill at Deer Lodge the 20th of this month. A cross-cut will be made on the 600-foot level today, striking the lead. Stock is now quoted at about 40.

The little daughter of William Beaumont, of the firm of Lodge & Beaumont, while playing on the bank of the creek near the Presbyterian church, about noon Saturday, fell into the water and was swept under the bridge out of sight, the water being even with the under side of the bridge. F. C. Patterson, the well-known contractor, who was near by and happened to see her fall in, jumped into the water and dove after her under the bridge. The little girl came through first, however, and was taken from the water by others. Much credit is due Mr. Patterson, as if the child had not been underneath the bridge he would have probably been the only means of saving her.

After several days of cold, wet weather, Deer Lodge is again enjoying the warm sunshine, with an increased growth in vegetation. There was a great deal of snow melted in the mountains by the warm winds during the early part of the week, and the creeks are now overflowing, but no apprehension is felt by ranchmen as to the supply still in the mountains. So far everything indicates a prosperous season.

IN THE BAIT TRAFFIC.

Newfoundland Sailors Greatly Annoy the Government.

HALIFAX, May 11.—Latest advices about affairs at Fortune Bay, N. F., are to the effect that more than 80 schooners had escaped with bait to St. Pierre. The crews of the schooners disposed of the bait all right, but the trouble was how they could get back home again and keep the law. After much deliberation in St. Pierre 35 men determined to risk it and accordingly put out for home. They were accompanied by 20 more schooners which were not in the bait traffic, but whose crews sympathized with them. The Lady Glover and the Favorite helplessly followed. The men on board the schooners threatened to fire if they interfered. The fleet got into St. Jacques in the evening and the smugglers soon ascertained the strength of the bait protection squadron as represented by the crews of the Tiona and the Lady Glover. They landed with a fixed determination of defying arrest. The Tiona and the Lady Glover, however, received reinforcements by the steamer Conscript, and the men, seeing they had overwhelming numbers to deal with gave in. The 35 men were at first arrested, but that number afterward was reduced to eight, who are considered to be the ringleaders of the lawbreakers.

RUN OUT OF BUSINESS.

A Motor Company That Was Compelled to Assign.

CHICAGO, May 11.—The Belding Motor Manufacturing company made an assignment this morning; liabilities \$175,000 of which \$100,000 is for borrowed money. The assets not scheduled are thought not to exceed the liabilities. The suspension was caused by two disastrous fires that burned the company's stock shops at Hermosa and by the failure of capitalists to fulfill their promises of financial support.

THE WHEELS OF PROGRESS.

The Great Flathead Lake Country Going to the Front.

Special Correspondence of the Standard.

DEMERSVILLE, Mont., May 9.—Considering the fact that the wonderful natural resources of the Flathead country are the general topic of comment throughout the state and the Northwest a few interesting notes from the metropolis and central supply point of this fertile valley may not be amiss at this time. Stretching out limitlessly for miles, in every direction the eye rests upon a soil whose productiveness beggars description. Finely cultivated farms, teeming with all the fruits, cereals and other products of the temperate zone, are found here in prodigious abundance. Inexhaustible forests of timber are readily accessible. We are environed by immense coal fields and prospectors are daily reporting new discoveries. A. L. Demers of St. Ignace and P. H. Cone of Missoula have discovered a very fine brick clay within half a mile of Demersville and will be prepared in a few days to supply orders. The Missoula Mercantile company has contracted for 200,000 brick and will erect a handsome business block shortly. Three sawmills are taxed to their utmost limit in supplying local orders.

Owing to the purity of our water, which can be secured at very little expense, a Montana syndicate will establish a brewery and bottling establishment at this point in a few days.

The real estate firm of Clifford & Stannard were, in consequence of the brisk demand for city property, constrained to plat several additions to Demersville recently. In less than 30 days the city will be illuminated electrically. The plant is now en route. An efficient fire department in splendid working order. By July 1 the city will be incorporated. The Northern Abstract company, with a capital of \$5,000 has been incorporated; J. E. Clifford, president; R. L. Clinton, vice president; George F. Stannard, secretary and treasurer. Their principal office will be at Demersville. There is plenty of employment for mechanics, laborers, etc.

A joint stock company, consisting of Clifford, Stannard and Brown, will locate a windmill on the corner of Demers avenue to supply water for the city in case of fire and also for street sprinkling purposes. The capacity of the tank will be 400 barrels.

A STRIKER KILLED.

A Fearful Fight at Denver—Other News of Strikes.

DENVER, Col., May 11.—A desperate fight took place in the city park today between F. N. Davis and Ed. Gavis (white), and five colored employes on one side and 50 or more strikers on the other. Two men were fatally shot and 12 were wounded more or less seriously. The fight was the outgrowth of the brickmasons strike at the Davis yards. This morning Davis & Son, proprietors, with eight negroes with loaded guns, started for the yards with the avowed intention of beginning work or dying in the attempt. As they were nearing the yards, the party of the strikers, headed by Frank Surber, appeared and asked that they be allowed to talk to the men who were going to work. Davis replied the men did not want to talk and ordered the strikers to allow his men to pass. This the strikers would not do, and Davis and his son and five of the men opened fire on the strikers. Thomas Kelly was fatally wounded and died two hours after. The man most seriously injured is John Rukenour. The strikers were jailed. F. N. Davis said: "I shot to kill and I don't deny it. When I told Surber the men did not want to talk and ordered them out of the way, Surber said: 'Boys, every man grab a gun. They rushed on us, throwing stones and shooting. I told my men to fire and shoot to kill.' The strikers deny that they acted on the aggressive. The men about the park say in addition to the men shot, two little boys crossing the park at the time were hit by a stray shot, but neither fatally hurt.

INDIANAPOLIS, May 11.—The strike on the Midland road is extending. Attorney Crawford swore out warrants against the strikers to-day for stopping the train, but the officers refused to serve them, saying Crawford has no money to pay the mileage and they are not compelled to serve unless the actual expenses are guaranteed.

TRIENSTON, N. J., May 11.—The strike of the sanitary potters union which began in December last ended to-day, mutual concessions being made by the employers and the union. Nine potteries were involved, employing 200 men.

NEWARK, N. J., May 11.—Six more carpenter shops closed down today, making the number of men now idle over 800.

ST. LOUIS, May 11.—The Brotherhood of painters has decided to make the strike general and about 1,000 went out this morning.

CALLED BACK.

The Italian Consul at New Orleans Will Return to Rome.

WASHINGTON, May 11.—It is understood that Pasquale Corte, the Italian consul at New Orleans, has been recalled by his government and that the functions of his office will be exercised by another Italian consular officer now in the United States. This action is not inspired by the government of the United States, and is probably taken by the Italian government either because it was felt the consul has been indiscreet in his public utterance or that his usefulness is impaired.

ROME, May 11.—The Italian consul at New Orleans, Signor Corte, has been notified to return home in order to furnish the Italian government with the exact account of the events which had taken place since the murder of Chief of Police Hennessy. Vice Consul Poma of the Italian consulate in New York, will act for Consul Corte during his absence.

At Minneapolis—Minneapolis 8, Denver 14.

THEY FEEL INJURED.

Jamaica People Feel Slighted by the United States.

HALIFAX, N. S., May 11.—Adam S. Brown, Canadian commissioner at the Jamaica exhibition has returned from Kingston, Jamaica, and reports the exhibition a success in everything but its finances. Brown says the people of Jamaica feel very sore over the neglect of the United States, with which the largest port trade of the island is done to take part in the exhibition. Strong efforts are being made to induce the government to send commissioners to Washington to see if Blaine can be induced to allow existing relations between the two countries to continue. People want to hold on to their enormous trade with the United States but do not want to come under the reciprocal provision of the McKinley bill for the reason that to abolish and materially lower its tariff on American breadstuffs and manufactures will cripple its revenue as well as discriminate against England and her colonies.

TERRIBLE PROSECUTION.

Russian Jews Who are Treated Worse Than Dogs.

LONDON, May 11.—Since the Greek attack on the Jewish quarter of Corfu, Jewish residents of the town have not dared to open their shops or let themselves be seen in the streets. They creep out of their houses at day break to buy victuals, for which they have to pay three times the value. All synagogues are closed. A recent Jewish funeral required an escort of troops. The anti-semitic movement is increasing. Almost daily attempts to set fire to the Jewish quarter by means of rage soaked in petroleum have been made.

SOLDIERS UNDER ARREST.

The Walla Walla Lynching Affair in the Courts.

WALLA WALLA, Wash., May 11.—The military authorities at Fort Walla Walla have arrested eight enlisted men, charged with being accessory to the lynching of Hunt, April 24. When it became known the arrests had been made, six other men deserted. The provost guard is now in search. It is rumored a number of other arrests will be made. The grand jury is still in session, and it is stated a number of the soldiers will be indicted. Corporal Arnold is under arrest for having unlocked the arms racks and given the men their guns the night of the lynching.

BOILED DOWN.

Interesting Items From Various Parts of the World.

KANSAS CITY, May 11.—The international convention of the Young Men's Christian association adjourned sine die last night.

DETROIT, Mich., May 11.—Three men were killed and injured last night near Shepherd by a collision of log trains on the Toledo and Ann Arbor and Northern Michigan railroad.

BRUSSELS, May 11.—There is evidence now that poverty will drive the Belgian miners, on a strike to resume work. It is reported half of the strikers in the Liège district will return to work to-morrow.

LOUISVILLE, May 11.—Teuton, one of the most prominent candidates for mayor here, has been taken down here, and will not be taken out. Teuton's left foreleg has given away but it is not thought he will be retired to good.

CLARKSBURG, W. Va., May 11.—The corner's jury in the Ocean mine disaster returned a verdict censuring the owners and lessees and accusing them of wilfully neglecting necessary precautions for the safety of the men. The matter will be brought to the attention of the grand jury next week.

Terribly Burned.

PATERSON, N. J., May 11.—Miss Mabel Fenton was so terribly burned to-night that she will be unable to play again for several months. Her clothing came into contact with an alcohol lamp.
